Greetings!

We at Research Dynamics have been very busy this summer! Take a look at what we've been up to...

## New Free Presentation Posted Online: Best Practices: Centralized Monitoring

We have posted our free webinar presented in conjunction with DATATRAK, originally broadcast on May 31st this year.

This free webinar describes best practices in re-engineering clinical research processes for clinical and data management to gain efficiency when using EDC effectively.

Presented by Lorraine Ellis, President and CEO of Research Dynamics, and Dr. Bill Gluck, VP of Clinical and Consulting Services at DATATRAK, this webinar focuses on strategies to assess and implement a greater reliance on centralized monitoring as defined in the draft FDA guidance on risk-based monitoring.

## Next Webinar: A Risk-Based Approach to Monitoring - Draft Guidance for Industry Oversight of Clinical Monitors

Lorraine Ellis will be presenting our next webinar, A Risk-Based Approach to Monitoring, on September 14th from 11am - Noon Eastern Time.

In this information packed webinar, you'll learn FDA's new guidance on monitoring, find how it will affect your monitoring processes, and learn how to develop new types of monitoring plans using a risk-based analysis.

## Back To School Sale!

Our SOP Templates for the Investigator Site are a crucial tool for improving regulatory compliance, enhancing staff performance, reducing supervisory and management time, standardizing your practice, and more. You can develop efficiencies and save even more costs, since from now until the end of September, they are 10% off!

This discount applies to the purchase of our full kit of 26 different SOPs, including sample job descriptions. Or depending on your site's needs, our individual SOPs are available at their already great low price!

[CLICK HERE to learn more about our SOPs and our other books and guides that are all 10% for "Back to School" time!](#)

---

## Fantastic Feedback!

Our On-Site training sessions are a great way to keep new staff trained and old staff completely up to date on all things GCP! Here are some great quotes from a few recent on-site trainings we have held across the country, at sponsor and investigator sites:

"The content directly related to our objectives."

"(It) was a great presentation! Very informative."

"Lorraine Ellis is an exceptional speaker, she should come back more often."

"Reinforced my current practice but added the needed information for devices that I was lacking."

[CLICK HERE to learn more about our GCP Training classes, our on-site training, and all our training options for keeping your staff up-to-date and informed!](#)

We'd love to hear from you! Call or email with your comments, or reach out to us on Twitter!

**Sincerely,**
