New GCP Training Webinar Program Announced by Research Dynamics

Rochester, NY- July 15, 2011: Research Dynamics Consulting Group, Ltd., a leader in GCP training, announced today initiation of its Webinar Program as part of its Clinical Research Training Curriculum. Following on the success of its initial webinar in June, Research Dynamics plans to offer monthly webinars to provide updates on the latest Good Clinical Practices requirements and trends as well as standard courses. One of the first webinars, "Latest FDA Guidance on Investigator Responsibilities", is focused on FDA guidance on both Investigator Site and Sponsor GCP activities. These Webinars provide a cost-effective way to stay current on GCP requirements and to learn new techniques of study conduct.

Research Dynamics has been a part of the clinical research training industry for almost 20 years. The company has trained thousands of clinical research professionals in pharmaceutical / biotech / device companies, academia, hospitals, SMOs, Investigator Sites and other organizations. The Company's other training products and services include on-site training programs (standard or custom), reference books for research professionals, and Investigator SOPs. Research Dynamics maintains state-of-the-art updated training programs, and its experience stays current through their CRO activities.

One of the Principal Instructors of the Webinar program is Lorraine D. Ellis. MS, MBA who has conducted GCP training for over 25 years. She is an experienced trainer with in-depth knowledge as a result of hands-on experience in clinical trials. Ms. Ellis has over 30 years of direct clinical research experience and is the author of several books, articles and other clinical research materials. She has authored and taught over 50 courses designed for clinical research professionals. She has written articles published in several journals, and presented at major industry meetings such as DIA, ACRP, CRO

Partnerships and others. Ellis has also served as faculty for ACRP courses and is an Adjunct Professor in the MS, Clinical Research Management program at Rochester Institute of Technology

The next 2 webinars are scheduled on the 25th and 27th of the July. For more information on the webinar program and registration information, visit www.resdyncg.com.

About Research Dynamics Consulting Group, Ltd.

Research Dynamics (RDCG), founded in 1993, has been recognized as one of the top training companies in the industry. RDCG also provides training resources, books and other tools for clinical research.
